Space-Saving, Cascading Literature Displays.

DR6473 Crystal Clear

DR6473 Smoke

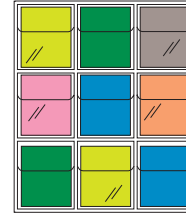

DR6473 Glass Green

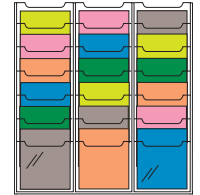

Display a large variety of literature with our space-saving, cascading designs. The top quarter of your literature remains exposed, which is all that is necessary for quick identification. The overlapping design optimizes wall space and is ideal for offices, lobbies, and waiting rooms with limited wall space. Choose from displays for magazines, pamphlets, or a combination of the two. Made from durable, injection-molded acrylic.

The Cascading Difference

Maximize your wall space and display 200% more literature with the cascading design versus a full view display.

Innovative “no-curl” design

High-front panels prevent literature from curling, and the recessed design makes it easy to retrieve contents. Magazine Display Pockets measure 9½" w x 12" h x 1" d.

Modular displays keep up with your growing needs

Unlike traditional literature displays, our Cascading Displays are modular. Add additional units either side-by-side, or stack two displays on top of one another. Two stacked Cascading Displays have a height of 46".

Combine Literature and Pamphlet Displays to Create your own Custom Cascading Display System

The Literature and Pamphlet Displays can be configured in a variety of ways to meet specific display requirements. Whether they are mounted on top of each other or side-to-side, Modular Cascading Displays enable you to create the capacity you need in minimum space.

The width of **one** Cascading Literature Display is equal to **two** Pamphlet Displays.

DR6473 with two DR697's on each side (shown in crystal clear) provides 18 pockets for magazines, and 12 pockets for brochures and pamphlets.

DR6473 stacked on top of DR6976 (shown in crystal clear) provides 18 pockets for magazines, and 36 pockets for brochures and pamphlets.
